

# Master's Thesis Defense

## Measuring Technical Debt in Mission Critical Trading Systems

Tobias Zeier

2026-07-10

### 1. Introduction & Objectives

- **Problem Statement:** Briefly define the gap in the current literature.
- **Research Question:** What did you aim to solve?
- **Objectives:** List 3 core goals of your thesis.

### 2. Methodology

- Outline the experimental setup or theoretical framework.
- Mention software used (e.g., *R*, Python, MATLAB).

### 3. Key Findings

#### Central Finding

Summarize your most significant result here.

- **Result 1:** Data proving your hypothesis.
- **Result 2:** Secondary observations.

### 4. Conclusion

- Restate the importance of your findings.
- Future work recommendations.

## **Questions?**

Thank you for your attention!
